## CONGRESS GROUP FAVOR SANATORIA IN STATE FLORIDA

Florida Senators and Congressmen Will Aid in Securing Funds

Every member of Florida's Congressional delegation in Washington is pledged to assist in securing Federal funds with which to construct tuberculosis sanatoria in Florida. Senators Duncan U. Fletcher and Park Trammell, Congressman W. J. Sears, Milton Caldwell, J. Hardin Peterson, J. Mark Wilcox and R. A. Greene have all written their constituents of their interest in this public health project.

An application was made by the Florida Tuberculosis Board through the Public Works administration, for funds with which to construct tuberculosis sanatoria. Copies of the data supporting this application have been sent to each member of the congressional delegation, with the request that consideration be given this matter in Washington.

The plan under which the application was made, has been approved by the Florida State Planning board, the Florida Medical association, Florida Tuberculosis and Health association, Florida State Board of Health, Florida State Board of Commerce, Florida League of Municipalities, Florida Federation of Women's Clubs, Florida State Board of Health and every other state agency, welfare, civic and fraternal group.

Florida has been zoned into five districts and sanatoria in each. The plan contemplates the erection of one institution immediately and others, each two years hence. The five institutions are based on the number of cases in each of the counties forming the districts.

It has been pointed out that Florida is one of five states which have no provision for its tuberculosis, the other four states being sparsely populated, tuberculosis not presenting a severe problem.

All other southern states make provision for persons with this communicable disease.
